Contents of Volume 94 (1999)

Review

K. T. Preissner, S. M. Kanse, T. Chavakis, A. E. May: The dual role of the urokinase receptor system in pericellular proteolysis and cell adhesion: implications for cardiovascular function 315

M. Toborek, S. Kaiser: Endothelial cell functions. Relationship to atherogenesis 295

Original contributions

C. P. Baines, L. Wang, M. V. Cohen, J. M. Downey: Myocardial protection by insulin is dependent on phospatidylinositol 3-kinase but not protein kinase C or KATP channels in the isolated rabbit heart 188

S. Balaji, K. W. Hewett, R. S. Krombach, M. J. Clair, X. Ye, F. G. Spinale: Inducible lethal ventricular arrhythmias in swine with pacing-induced heart failure 486

J. A. Balschi: ^{23}Na NMR demonstrates prolonged increase of intracellular sodium following transient regional ischemia in the in situ pig heart 60

B. Bauer, B. Z. Simkhovich, R. A. Kloner, K. Przyklenk: Preconditioning-induced cardioprotection and release of the second messenger inositol (1,4,5)-trisphosphate are both abolished by neomycin in rabbit heart 31

M. M. Borst, G. Simonis, J. Röthele, E. Gerlach, R. Marquetant, R. H. Strasser: Blockade of A_1 adenosine receptors prevents the ischaemia-induced sensitisation of adenylyl cyclase: evidence for a protein kinase C-mediated pathway 472

K. Brixius, M. Pietsch, R. H. G. Schwinger: The intracellular Ca2+-homeostasis influences the frequency-dependent force-generation in man 152

G. L. Chien, K. Mohtadi, R. A. Wolff, D. M. Van Winkle: Naloxone blockade of myocardial ischemic preconditioning does not require central nervous system participation 136

L. Choudhury, P. Elliott, O. Rimoldi, M. Ryan, A. A. Lammertsma, H. Boyd, W. J. McKenna, P. G. Camici: Transmural myocardial blood flow distribution in hypertrophic cardiomyopathy and effect of treatment 49

K. L. Davis, U. Mehlhorn, E. R. Schertel, H. J. Geissler, D. Trevas, G. A. Laine, S. J. Allen: Variation in Tau, the time constant for isovolumic relaxation, along the left ventricular base-to-apex axis 41

E. Deroubaix, D. Thuringer, A. Coulombe, J.-J. Mercadier, E. Coraboeuf: Dilation and action potential lengthening in cardiomyopathic Syrian hamster heart 274

H. Dörge, M. Behrends, R. Schulz, A. Jalowy, G. Heusch: Attenuation of myocardial stunning by the AT1 receptor antagonist candesartan 208

E. Geshi, A. Nomizo, Y. Arata, M. Nakatani, T. Katagiri: Effect of non-selective endothelin blockade, TAK-044, on the ischemic cellular injury of rat heart 94

B. Heindl, P. F. Conzen, B. F. Becker: The volatile anesthetic sevoflurane mitigates cardiodepressive effects of platelets in reperfused hearts 102

C. Herdeg, M. Oberhoff, A. Baumbach, A. Blattner, A. Küttner, S. Schröder, K. K. Haase, K. R. Karsch: Visualization and comparison of drug effects after local paclitaxel delivery with different catheter types 454

R. A. Humphreys, K. A. Kane, J. R. Parratt: The influence of maturation and gender on the anti-arrhythmic effect of ischaemic preconditioning in rats 1

H. Huwer, J. Rissland, B. Vollmar, N. Nikoloudakis, C. Welter, M. D. Menger, H. J. Schäfers: Angiogenesis and microvascularization after cryothermia-induced myocardial infarction: A quantitative fluorescence microscopic study in rats 85

K. Igarashi-Saito, H. Tsutsui, M. Takahashi, S. Kinugawa, K. Egashira, A. Takeshita: Endocardial versus epicardial differences of sarcoplasmic reticulum Ca2+-ATPase gene expression in the canine failing myocardium 267

L. C. Katwa, S. E. Campbell, M. A. Tanner, P. R. Myers: The upregulation of endothelin and its receptors in porcine coronary arteries in a double balloon injury model of restenosis 445

E. Kristof, G. Szigeti, Z. Papp, A. Bodi, N. A. Ball, R. A. Walsh, I. Edes: The effects of levosimendan on the left ventricular function and protein phosphorylation in post-ischemic guinea pig hearts 223

H. Kumashiro, S. Kusachi, H. Moritani, H. Ohnishi, M. Nakahama, T. Uesugi, Y. Ayada, H. Nunoyama, T. Tsuji: Establishment of a long-surviving murine model of myocardial infarction: Qualitative and quantitative conventional microscopic findings during pathological evolution 78

R. D. Lasley, J. O. Hegge, M. A. Noble, R. M. Mentzer: Evidence that cytosolic and ecto 5'-nucleotidases contribute equally to increased interstitial adenosine concentration during porcine myocardial ischemia .. 199

N. Latif, P. M. Taylor, M. A. Khan, M. H. Yacoub, M. J. Dunn: The expression of heat shock protein 60 in patients with dilated cardiomyophathy 112

A. F. Leite-Moreira, J. Correia-Pinto, T. C. Gillebert: Load dependence of left ventricular contraction and relaxation. Effects of caffeine 284

S. Al Makdessi, H. Sweidan, K. Dietz, R. Jacob: Protective effect of Crataegus oxyacantha against reperfusion arrhythmias after global no-flow ischemia in the rat heart 71

P. A. Martorana, H. Ruetten, B. Goebel, D. Koehl, B. Roegner, B. A. Schoelkens, M. Keil: Ramiprilat prevents the development of acute coronary endothelial dysfunction in the dog 238

P. Massoudy, T. Mempel, P. Raschke, B. F. Becker: Reduction of oxygen delivery during post-ischemic reperfusion protects the isolated guinea pig heart ... 231

J. Meehan, M. R. Piano, R. J. Salaro, J. M. Kennedy: Heavy long-term ethanol consumption induces an alpha- to beta-myosin heavy chain isoform transition in rat 481

T. Miki, M. V. Cohen, J. M. Downey: Failure of N-2-mercaptopropionyl glycine to reduce myocardial infarction after 3 days of reperfusion in rabbits 180

C. I. Pantos, D. D. Cokkinos, S. M. Tzeis, V. Malliopoulou, I. S. Mourouzis, H. C. Carageorgiou, C. Limas, D. V. Varonos, D. V. Cokkinos: Hyperthyroidism is associated with preserved preconditioning capacity but intensified and accelerated ischaemic contracture in rat heart 254

E. Pasini, R. Solfrini, T. Bachetti, M. Marino, P. Bernocchi, F. Visioli, R. Ferrari: The blood perfused isolated heart: characterization of the model 215

H. Reuter, C. Zobel, K. Brixius, B. Bölck, R. H. G. Schwinger: The force-frequency relationship is dependent on Ca^{2+}-influx via L-type- and SR-Ca^{2+}-channels in human heart 159

R. Riessen, D. I. Axel, M. Fenchel, U. U. Herzog, H. Roßmann, K. R. Karsch: Effect of HMG-CoA reductase inhibitors on extracellular matrix expression in human vascular smooth muscle cells 322

K. L. Rogers, L. Chi, S. T. Rapundalo, J. B. Kramer, K. P. Gallagher: Effects of a factor Xa inhibitor, DX-9065a, in a novel rabbit model of venous thrombosis . 15

C. Rücker-Martin, M. Hénaff, S. N. Hatem, E. Delpy, J.-J. Mercadier: Early redistribution of plasma membrane phosphatidylserine during apoptosis of adult rat ventricular myocytes in vitro 171

J. Sakamoto, T. Miura, A. Tsuchida, T. Fukuma, T. Hasegawa, K. Shimamoto: Reperfusion arrhythmias in the murine heart: their characteristics and alteration after ischemic preconditioning 489

U. Schotten, S. Voss, T. B. Wiederin, M. Voss, F. Schoendube, P. Hanrath, C. Schumacher: Altered force-frequency relation in hypertrophic obstructive cardiomyopathy 120

A. Schmermund, D. Baumgart, R. Erbel: Potential and pitfalls of electron-beam computed tomography in detecting coronary atherosclerosis 427

M. Shadid, F. Van Bel, P. Steendijk, C. A. Dorrepaal, R. Moison, E. T. Van Der Velde, J. Baan: Pretreatment with allopurinol in cardiac hypoxic-ischemic reperfusion injury in newborn lambs exerts its beneficial effect through afterload reduction 23

A. Simm, C. Diez: Density dependent expression of PDGF-A modulates the angiotensin II dependent proliferation of rat cardiac fibroblasts 464

N. Singh Kent, K. Davia, S. E. Harding: Characterisation of the function of adult guinea-pig ventricular myocytes following co-culture with neonatal rat myocytes 9

J. Su, F. Barbe, R. Houël, T. T. Guyene, B. Crozatier, L. Hittinger: Comparison between angiotensin receptor antagonism and converting enzyme inhibition in heart failure differential acute effects according to the renin-angiotensin system activation 128

U. Schotten, C. Schumacher, V. Conrads, V. Braun, F. Schöndube, M. Voss, P. Hanrath: Calcium-sensitivity of the SR calcium release channel in failing and nonfailing human myocardium 145

S. Yasuda, Y. Goto, T. Shishido: Uncoupling between left ventricular contractility and relaxation after direct-current counter shocks 261

T.-J. Youn, H.-S. Kim, B.-H. Oh: Ventricular remodeling and transforming growth factor-beta 1 mRNA expression after nontransmural myocardial infarction in rats: effects of angiotensin converting enzyme inhibition and angiotensin II type 1 receptor blockade 246
